

HARRIS
★ Since 1922 ★

Harris® SUPER SIZED FLY STICKY TRAPS (6" x 8") feature a bright yellow, double-sided extra sticky surface that traps flies, aphids, whiteflies, gnats, fruit flies and more.

The traps come with twist ties to hang where flying insect activity is seen. Water resistant, durable surface makes them ideal for indoor and outdoor use.

DIRECTIONS: Remove the protective film and hang. Not recommended for sticking onto surfaces. This product is meant to hang freely to trap flying insects. Inspect traps at least monthly and discard when full of insects.

IMPORTANT: Avoid placing traps in areas where there is a danger of children, pets and non-target species of wild bird or animal coming into contact with traps.

FIRST AID INSTRUCTIONS: In case of contact with adhesive, use vegetable or mineral oil to remove adhesive from skin.

Storage: Store in a cool, dry place inaccessible to children and pets. Avoid heat and direct sunlight. **Disposal:** After use, fold trap over or wrap in newspaper or paper towels and dispose in trash.

EPA Est. No. 100684-POL-1
