

HARRIS

★ Since 1922 ★

Potted Plant INSECT TRAPS

Harris® Potted Plant Insect Traps kill a wide variety of insects that attack indoor plants. The traps kill gnats, whiteflies, aphids and many others, without using insecticides.

Do not use traps in wet areas. In case of accidental contact with the adhesive, use baby oil or cooking oil for cleanup.

Dispose of when traps are full or after 3 months.

EPA Est. No. 100684-POL-1
