

Made In Eugene, Oregon

Oyster Shell is an all natural and high quality source of the essential plant nutrient calcium. Ancient oyster shells are carefully harvested and then ground into small, medium and coarse particles. These irregular shapes provide a sustained release of this valuable nutrient and help prevent deficiencies that can diminish plant development. Oyster Shell also aids in improving structure of soils and building optimum tilth.

GUARANTEED ANALYSIS

CALCIUM (Ca) 35.0% Listed by the Organic Materials Review Institute (OMRI) for use in organic production.
Derived from: Ground Oyster Shell F002174

APPLICATION RATES

Approximate Conversions	2 cups ≈ 1 lb	1/2 cup ≈ 4 oz	1 Tbsp ≈ 0.5 oz
-------------------------	---------------	----------------	-----------------

Vegetable Gardens & Flower Beds:

To prepare new gardens, apply 4 lbs per 100 square feet and thoroughly mix into the top 3" of garden soil.

For new transplants, add 1-2 Tbsp per hole, mix into soil and water in well.

To feed established plants, side dress 2-4 oz, depending on plant size and desired growth rate, once each month during the growing season.

Outdoor Containers:

For new plantings, add 1-2 Tbsp per gallon of soil and mix thoroughly OR add 0.5-1 lb per cubic yard.

For established plants, lightly mix 1-2 Tbsp per gallon of soil into the soil surface every other month during the growing season.

Trees & Shrubs:

Spread 1 lb per 1" of trunk diameter around the base outwards to the drip line, mix into soil surface and water in well.

For new trees, prepare transplant hole and mix 1-2 cups with the backfill soil. Use amended soil to fill in around new tree and water in well.

USE OF A DUST MASK IS RECOMMENDED
